

Smart Meet

Short Summary of your meet !!!

[Music]. I'm not made for it probably I'm not a. good programmer or probably my thinking. you know just the programming syntax and . some basic loops and function and you. about the solution of that we need to. increases and he's able to write code. in improving your coding ability and. seeing a problem and you are looking out. help that much so the second approach is. filter out on that website usually these. you have been prepared for them once you. 5 months or six months or probably a. year then only you will get better on. the very big nerd phase of these. out them with the challenges based on. that we would love to hire you on this. take these challenges and enjoy.

AI based minutes of your meet !!!

if you are already good in competitive programming, it's important to take out these challenges and get started with them. they wi

ll be available only for free but there is one of the most exciting projects we have ever been working on this year!
